

## **LGFA - Optional Injury Fund Payment**

Club Officers, Team Mentors and Match Officials (Referees, Umpires and Linespersons) can pay €25 into the LGFA Injury Fund via the Optional Injury Fund payment option to get the same cover as LGFA Playing members.

Also, Youth members (U-16-U-18) who wish to be covered for Loss of Wages can also pay via the Optional Injury Fund a Top-Up Payment of €15 to get the same cover as a LGFA Adult Playing member.

Full details of the benefits and terms of the LGFA Injury Fund are available online at <https://ladiesgaelic.ie/resources/injury-fund/>

There are two ways to add the Optional Injury Fund Payment to a members LGFA registration and it all depends on if the member is registered now or not.

(1) Register the member and add the Optional Injury Fund Payment at the time of registration.

(2) Upgrade an existing LGFA current Green registered chip to include the Optional Injury Fund Payment.

1-If the member is currently not registered for the current season.

The club should create a Membership Option on Foireann and call it the Membership Type with Injury Fund Payment and set it to €25 or €15 higher than the standard rate depending on if it's a LGFA Adult Full (Non-Player) or a Youth member (U-16-U-18) and get the member to register to the club and pays the fees online into the club's Foireann linked Stripe account.

Membership chips will look the same, but the Package Names will be different, I would recommend the club to encourage members that pay this extra charge to make the club registrar aware so that the club register can complete this registration slightly differently and on its own as they must select the Optional Injury Fund Payment as per diagram below.

2 – Upgrade an existing LGFA current Green registered chip to include the Optional Injury Fund Payment.

A Club Admin on Foireann must select the current Green LGFA registered chip, when they select the chip, an Update membership red box appears. Club admin then select

the update option and select the option to add the Optional Injury Fund Payment and then they select PAY LGFA Fees and the system works out the update cost.

Updated cost in this situation must be collected by the club outside of Foireann.

The following Help Document from our website explains this feature.
